annual audit

▼ Maintain annual auditor certificate for client level segregation

ia-seg-05

Critical risk

Compliance/Audit

grounded - 100.0

Required action

Obtain and maintain an annual auditor certificate for client level segregation

Frequency: annual . Deadline: -

Source: Para h)

Evidence

Auditor's certificate confirming compliance with client level segregation requirements

Example: an annual auditor certificate

Action, evidence and source text stay together.

Source checks make review visible

Python checks match extracted quotations against the original PDF text.

97.3%
of obligations independently verified as traceable to source text

Matched source text is available for review

...(h) IA shall, wherever available, advise direct plans (non-commission based) of products only. (i) The IAs shall maintain on record an annual certificate from an auditor confirming compliance with the client level segregation requirements as specified in Regulation 22 of the IA Regulations. Such annual certificate shall be obtained within 6 months of the end of the financial year and form part of compliance audit, in terms of Regulation 19(3) of the IA Regulations.”4 (j) The IAs providing investment advisory services exclusively to institutional clients and accre...

277 grounded. 14 partial. 8 for review.

97.3% is source traceability, not overall accuracy.

Duties organised by when they recur

Recurring, event-driven and ongoing duties have distinct views for planning review.

ongoing

Investment Adviser

Adopt a compliance and monitoring process for client level segregation.

Status

Compliant

Source:

Para 1(i)(a)-(d)

A visible status for each obligation

Completion values reflect saved demo selections.

Circular changes shown before and after

Compare related obligations across versions and inspect the changed text.

Verbatim Text

Before · "In case of an individual client, “family of client”³ shall be reckoned as a single client and PAN of all members in “family of client” would jointly and severally be the control record. However, the same is not applicable for non-individual clients."

After · Permanent Account Number (PAN) of each client shall be the control record for identification and client level segregation.

Related obligations stay paired for a focused source-text comparison.

Example: the client PAN requirement

Detected differences are candidates for human review.

New circulars enter the update workflow

A monitor checks SEBI listings. Local processing can extract, verify and refresh the outputs.

Automation

Checking is always safe -- it only reads SEBI's live listing. Running the full pipeline needs a local Ollama instance.

Structured rules for downstream systems

Each rule records a trigger, required action, evidence and a breach-review action.

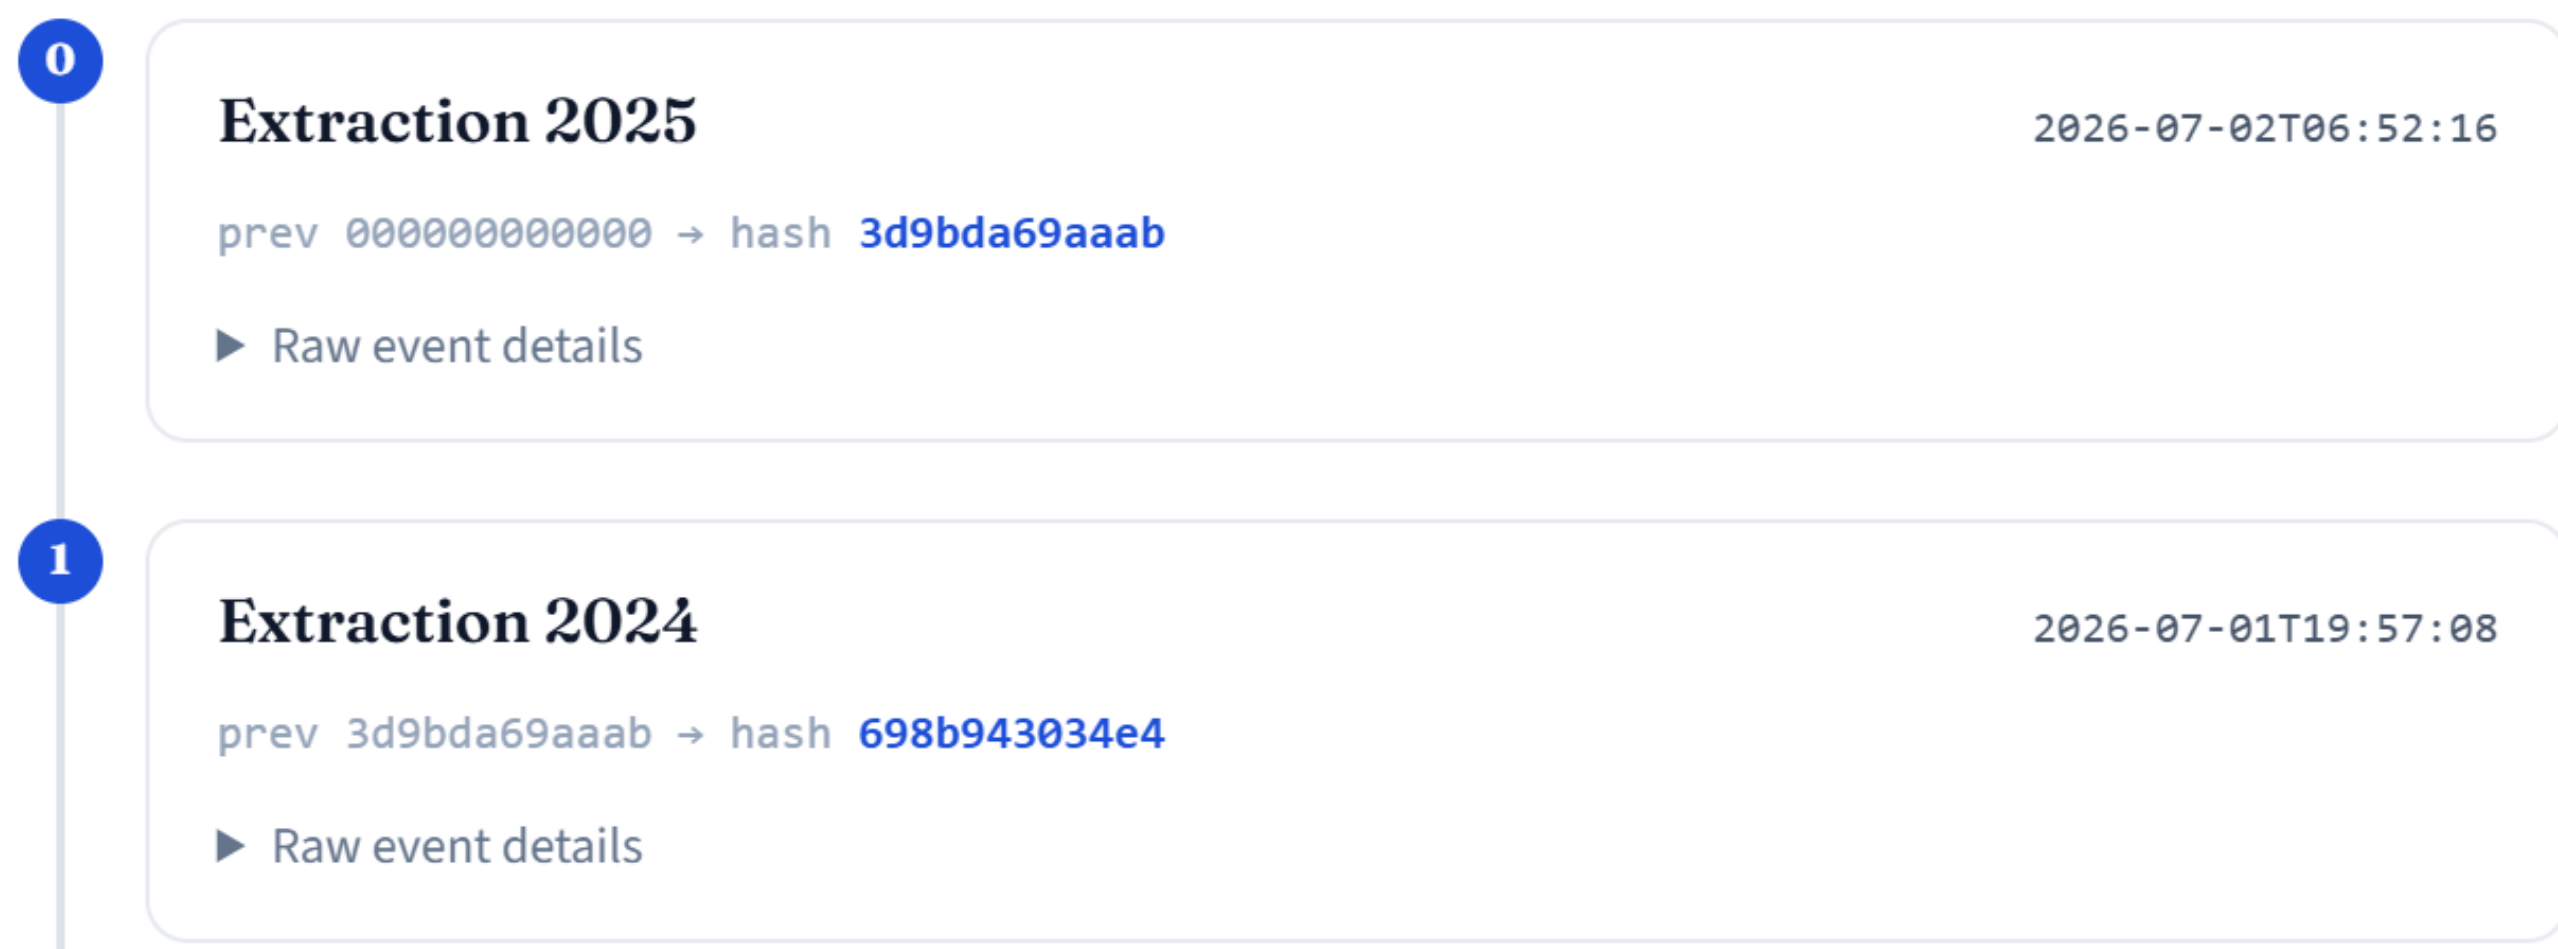

```
{
  "rule_id" : "rule-ia-seg-advisory-dist-01"
  "obligation_id" : "ia-seg-advisory-dist-01"
  "applies_to" : [
    0 : "investment_adviser"
  ]
  "trigger" : "IA's group/family level"
  "required_action" :
    "Adopt a compliance and monitoring process for client level segregation."
  "required_evidence" :
    "Documentation of the adopted compliance and monitoring process, including records of onboarding new clients and existing clients' service eligibility."
  "frequency" : "ongoing"
  "deadline_rule" : "not time-bound"
  "on_breach" : "flag_for_compliance_review"
  "source_clause" : "Para 1(i)(a)-(d)"
  "source_circular" :
    "SEBI/HO/IMD/DF1/CIR/P/2020/182 dated September 23, 2020 and SEBI/HO/MIRSD/MIRSD-PoD-1/P/CIR/2025/003 dated January 08, 2025"
}
```

A rule object a system can consume

Automatic real-world enforcement is a future integration.

Pipeline history with integrity checks

Events link through SHA-256 hashes. A verifier checks whether the retained chain is intact.

Each event includes the previous hash and its own hash for verification.

Built with Zayed Jawaid for a SEBI hackathon

A prototype for supporting human compliance review.
